Place your local government job vacancy in front of the right people with New Zealand's only jobs vacancy website dedicated to local government

The key benefits of advertising with LGJobs

As LGJobs is administered by the New Zealand Society of Local Government Managers (SOLGM) you can be sure that the site is dedicated to ensuring the sector has the best possible staff. By directly advertising to those in the sector - and job seekers interested in joining the sector, there is no doubt LGJobs will deliver the right candidates to you and your clients.

Extend your reach with our packages

We offer add-on packages, including our partnership with Trade Me Jobs, which allows seamless posting of the entire advertisement to Trade Me Jobs and/or distribution to our database of over 8,000 local government staff, elected members and other interested parties via our LGConnect discussion groups and twice weekly LGNewsBulletin e-newsletter.

With individual staff login rights you are in control

Within each account we are able to create individual login accounts for staff members across your organisation, meaning that you are able to keep a record of which staff members are posting vacancies. We are more than happy to set up as many staff users with specific rights as you require.

Restrictions to LGJobs.co.nz advertising

As LGJobs.co.nz serves the local government sector exclusively we do not allow advertisements to be placed for roles which are not relevant to the sector. Nor do we advertise roles outside of New Zealand.
