

## Summary of Recommended Protocols for COVID-19 Alert Levels 2 and 3

The following protocols are recommended to address extra risk associated with prolonged contact and heavy respiration in dance settings

AREA	CURRENT GOVERNMENT REGULATIONS AT LEVEL 2 FOR CONTROLLED ENVIRONMENTS	DANCE SECTOR PROTOCOLS FOR LEVEL 2	DANCE PROTOCOLS FOR LEVEL 3
Dance classes Rented halls for group activities	1 metre physical distancing (=3m <sup>2</sup> bubble)  Open window encouraged for air exchange  PPE optional	2 metre distancing Unique space per person equals 2m x 2m = 4m <sup>2</sup> /person  All shared equipment sanitised between each user (even if this is every few minutes)  Do not share items brought in by users (e.g.: props, drink bottles).	At Level 3, dance studios and exercise facilities must remain closed. Travel to a dance facility by staff is only permissible for essential activities (i.e. safety reasons) and does not include filming within the studio/facility, even if alone.  Dance professionals may train others via virtual platforms.  Only people from within the same family/house bubble may dance together, and the only interaction with a teacher should be via virtual means.
Teachers Choreographers		2 metre distancing Masks required where prolonged contact and physical distance less than 2 metres  Mandatory digital records for contact tracing (for quick access if needed).	
Dancers Dance students		2 metre distancing  1 metre for brief interactions  No contact (unless within the same family/house bubble)  Mandatory digital records for contact tracing (for quick access if needed).	
Administrative PPE and other controls	No entry to people with symptoms or requiring quarantine or isolation controls  Higher risk individuals encouraged to take extra precautions  Mandatory contact tracing	2 metre distancing  1 metre for brief interactions  No contact  Those at higher risk must have individual risk highlighted prior to entry.  Communication rules - all users must have had direct notification of rules before re-entering the facility for the first time AND signage reminding of rules in prominent locations. Users must be clear on what is expected of them.  Mandatory digital records for contact tracing (for quick access if needed).	

Note: All capacity constraints based on usable area available to customers, and excludes other space
